

Sushan Shrestha

Full Stack Software Engineer · MERN Stack | Node.js Focused

Lalitpur, Nepal · sushan.shr10@gmail.com · github.com/sushan591 · linkedin.com/in/sushan-shrestha

SUMMARY

Full stack software engineer with 9+ years of experience — 6+ of them building scalable, production-grade MERN applications with a strong emphasis on Node.js backend development. Experienced in designing RESTful APIs, authentication and authorization flows, and third-party integrations (payments, communication APIs, external data providers), with cloud deployments on AWS and Azure. Comfortable owning features end-to-end within cross-functional teams.

TECHNICAL SKILLS

Backend	Node.js, Express.js, REST APIs, Authentication & Authorization, API Integrations, Microservices, Socket.io, Kafka
Frontend	React.js (Hooks, Context), Redux, TypeScript, JavaScript (ES6+), HTML, CSS, Responsive Design
Databases	MongoDB, PostgreSQL, MySQL, MS SQL Server
Cloud & DevOps	AWS (Lambda, EC2, S3, CDK, ECS, Route53, EventBridge), Azure, Docker, CI/CD, Nginx
Tools & Practices	Git, Code Reviews, Cypress, Debugging, Performance Optimization

WORK EXPERIENCE

Full Stack Developer · Outcode LLC

Sept 2021 – Present · Kathmandu

- Designed and built scalable RESTful APIs with Node.js and Express for production MERN systems.
- Implemented secure authentication and authorization with token-based access and role-based permissions.
- Integrated third-party payments, communication APIs, and external data providers, including serverless integrations on AWS Lambda.
- Owned backend development for systems involving user management, scheduling, and complex business logic.
- Optimized MongoDB and PostgreSQL schemas and queries, reducing API response times and improving data consistency.
- Implemented CI/CD pipelines and Dockerized services; deployed and monitored applications on AWS and Azure.
- Led integration of new React frontend modules and conducted code reviews in Git-based workflows.

Web Developer · Diagonal Technologies Pvt. Ltd

Mar 2021 – Sept 2021 · Kathmandu

- Built modular microservices and REST APIs with Node.js and Express.
- Integrated APIs with responsive frontend apps using React.js.
- Containerized services with Docker to keep environments consistent.

Web Developer · H. T. Solution Pvt. Ltd

Feb 2017 – Feb 2021 · Kathmandu

- Led full-stack development for web platforms using PHP (Laravel) and JavaScript.
- Managed client communications and delivery cycles with Agile practices.

SELECTED PROJECTS

ZipId Form I-9 verification platform streamlining employee validation with digital compliance tools. React · Node.js · MongoDB	CLIENT PROJECT
Aegix Disaster reporting system on AWS Lambda with real-time alerts and map-based reporting. React · AWS Lambda · Node.js	CLIENT PROJECT
Trackify Internal time-tracking system for workforce management with a robust Express backend. Express.js · React · PostgreSQL	INTERNAL TOOL

EDUCATION

Bachelor of Information Management (BIM)
